Mine Design 484
HW 4

Report Subjects 9, 10, 11 include Mine Services such as blasting, haulage, drainage, fresh water and electric power. Each mine service supports the efficient operation of the mine and it is often the responsibility of the mine engineer to monitor and upgrade these systems.

Refer to the 484 Syllabus for more details about each subject area.

These papers will be graded on content, completeness and consistency as well as grammar and spelling. Team members must identify which separate parts of the assignment each has written for grading. Report style and organization, will be counted when the assembled draft report is submitted.
