Mine Design 484

HW 5

Report Subjects 12-14 include Processing Plant, Refuse or Tailings Disposal and Surface Facilities. A plan view of these facilities on a topographic base map is important for the reader to understand your plan and for your use later to schedule construction and estimate capital spending.

Refer to the 484 Syllabus for more details about each subject area.

These papers will be graded on content, completeness and consistency as well as grammar and spelling. Team members must identify which separate parts of the assignment each has written for grading. Report style and organization, will be counted when the assembled draft report is submitted.
