PROCEEDINGS, 2ND CONFERENCE ON GROUND CONTROL IN MINING, July 19-21, 1982 includes 34 papers in 6 sessions: (1) longwall, (2) angle bolting and roof truss, (3) roof control monitor and prediction, (4) mine design, (5) new roof control techniques, and (6) surface subsidence, 260 pages, $30.00 (plus shipping and handling).

PROCEEDINGS, 2ND WORKSHOP ON SURFACE SUBSIDENCE DUE TO UNDERGROUND MINING, June 9-11, 1986 includes 27 papers in 5 sessions: (1) regulatory, insurance and legal issues, (2) subsidence prediction I, (3) subsidence monitoring and control, (4) abandoned mine land and mine voids detection and (5) hydrological effects and subsidence prediction II, 282 pages, $35.00 (plus shipping and handling).

PROCEEDINGS, 5TH CONFERENCE ON GROUND CONTROL IN MINING, June 11-13, 1986 includes 30 papers in 6 sessions: (1) ground support I, (2) ground support II, (3) ground control measurements, (4) in-situ, geological and human factors, (5) strata behavior assessment, and (6) longwall mining, 316 pages, $35.00 (plus shipping and handling).

PROCEEDINGS, 9TH INTERNATIONAL CONFERENCE ON GROUND CONTROL IN MINING, June 4-6, 1990 includes 36 papers in 9 topical areas: (1) multiple seam mining, (2) entry support/design, (3) pillar design, (4) mine planning/design, (5) subsidence, (6) geological effects, (7) seismics/bumps/outbursts, (8) rock mechanics, and (9) ground control techniques, 312 pages, $45.00 (plus shipping and handling).

PROCEEDINGS, 5TH CONFERENCE ON THE USE OF COMPUTERS IN THE COAL INDUSTRY, June 9-12, 1995 includes 32 papers in 11 sessions: (1) management, planning, and evaluation I, (2) geographic information systems (GIS), (3) mine ventilation, (4) ground control I, (5) safety I, (6) ground control II, (7) expert systems and neural networks, (8) monitoring and control systems, (9) safety II, (10) management, planning, and evaluation II, and (11) summaries of panel discussions, 228 pages, $55.00 (plus shipping and handling).

PROCEEDINGS, 21ST INTERNATIONAL CONFERENCE ON GROUND CONTROL IN MINING, August 6-8, 2002 includes 49 papers in topical areas in 10 sessions: (1) longwall mining, (2) pillar/pillar extraction, (3) roof bolting, (4) stone, (5) surface/highwall mining, (6) floor heave/stability, (7) in-situ stress measurement, (8) roof geology assessment, (9) ground control, and (10) surface subsidence, 377 pages, $90.00 (plus shipping and handling).

Hardbound copies, $110.00 (plus shipping and handling).

PROCEEDINGS, 22ND INTERNATIONAL CONFERENCE ON GROUND CONTROL IN MINING, August 5-7, 2003 includes 54 papers in topical areas in 15 sessions: (1) longwall mining, (2) multiple seam mining, (3) room and pillar mining, (4) monitoring, (5) geology and mine mapping, (6) support design, (7) geotechnical planning, (8) roof bolting, (9) mine seismicity, (10) supplementary supports, (11) computer modeling, (12) mine stability, (13) roof falls, (14) subsidence, and (15) rock mechanics, 382 pages, $90.00 (plus shipping and handling).

Hardbound copies, $110.00 (plus shipping and handling).

PROCEEDINGS, 23RD INTERNATIONAL CONFERENCE ON GROUND CONTROL IN MINING, August 3-5, 2004 includes 47 papers in topical areas in 16 sessions: (1)
longwall mining, (2) roof mapping and void detection, (3) pillar failure/extraction/strength, (4) horizontal stress, (5) ground control I, (6) multiple-seam mining, (7) subsidence, (8) ground control II, (9) roof grouting, (10) surface mining, (11) control of very weak roof, (12) roof bolting, (13) innovative supports, (14) stone mining, (15) ground control III, and (16) safety, 355 pages, $100.00 (plus shipping and handling).

Hardbound copies, $120.00 (plus shipping and handling).

_____ copy(ies) PROCEEDINGS, 24TH INTERNATIONAL CONFERENCE ON GROUND CONTROL IN MINING, August 2-4, 2005 includes 54 papers in topical areas in 11 sessions: (1) longwall mining, (2) multiple seam mining, (3) pillar/pillar extraction, (4) surface subsidence, (5) roof falls, (6) geology, (7) high horizontal stresses, (8) highwall mining/slope stability, (9) mine/roof support design, (10) roof bolting, and (11) detection of ground conditions, 395 pages, $120.00 (plus shipping and handling).

Hardbound copies, $140.00 (plus shipping and handling).

_____ copy(ies) PROCEEDINGS, 25TH INTERNATIONAL CONFERENCE ON GROUND CONTROL IN MINING, August 1-3, 2006 includes 62 papers in topical areas in 14 sessions: (1) computer and physical modeling, (2) geology in ground control, (3) geophysics in ground control, (4) ground control, (5) impoundments stability, (6) longwall gateroad support design, (7) longwall operations, (8) longwall shields and standing supports, (9) mine design, (10) multiple-seam mining interactions, (11) pillar and pillar extraction, (12) roof bolting, (13) roof bolting-resin, and (14) subsidence, 451 pages, $120.00 (plus shipping and handling).

Hardbound copies, $140.00 (plus shipping and handling).
